STATUS	STATE	REGION	COMPONENTS	YR ENACTED
Not Enacted	**Alabama** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** SPOT - Distributed Generation/Solar Carve-out in • Alabama ■	**Southeast**	**Policy Components** **0/5**	
Not Enacted	**Alaska** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** SPOT - Distributed Generation/Solar Carve-out in • Alaska ■	**West**	**Policy Components** **0/5**	
Enacted	**Arizona** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** SPOT - Distributed Generation/Solar Carve-out in • Arizona ■	**Southwest**	**Policy Components** **5/5**	
Not Enacted	**Arkansas** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** SPOT - Distributed Generation/Solar Carve-out in • Arkansas ■	**Southeast**	**Policy Components** **0/5**	
Not Enacted	**California** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** SPOT - Distributed Generation/Solar Carve-out in • California ■	**West**	**Policy Components** **0/5**	

STATUS	STATE	REGION	COMPONENTS	YR ENACTED
Partially Enacted	**Colorado** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** - SPOT - Distributed Generation/Solar Carve-out in Colorado ■	**West**	**Policy Components** **1/5**	
Enacted	**Connecticut** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** - SPOT - Distributed Generation/Solar Carve-out in Connecticut ■	**Northeast**	**Policy Components** **5/5**	
Partially Enacted	**Delaware** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** - SPOT - Distributed Generation/Solar Carve-out in Delaware ■	**Southeast**	**Policy Components** **4/5**	
Not Enacted	**Florida** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** - SPOT - Distributed Generation/Solar Carve-out in Florida ■	**Southeast**	**Policy Components** **0/5**	
Not Enacted	**Georgia** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** - SPOT - Distributed Generation/Solar Carve-out in Georgia ■	**Southeast**	**Policy Components** **0/5**	

STATUS	STATE	REGION	COMPONENTS	YR ENACTED
Not Enacted	**Hawaiʻi** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** - SPOT - Distributed Generation/Solar Carve-out in Hawaiʻi ■	**West**	**Policy Components** **0/5**	
Not Enacted	**Idaho** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** - SPOT - Distributed Generation/Solar Carve-out in Idaho ■	**West**	**Policy Components** **0/5**	
Enacted	**Illinois** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** - SPOT - Distributed Generation/Solar Carve-out in Illinois ■	**Midwest**	**Policy Components** **5/5**	
Not Enacted	**Indiana** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** - SPOT - Distributed Generation/Solar Carve-out in Indiana ■	**Midwest**	**Policy Components** **0/5**	
Not Enacted	**Iowa** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** - SPOT - Distributed Generation/Solar Carve-out in Iowa ■	**Midwest**	**Policy Components** **0/5**	

STATUS	STATE	REGION	COMPONENTS	YR ENACTED
Not Enacted	**Kansas** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** - SPOT - Distributed Generation/Solar Carve-out in Kansas ■	**Midwest**	**Policy Components** **0/5**	
Not Enacted	**Kentucky** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** - SPOT - Distributed Generation/Solar Carve-out in Kentucky ■	**Southeast**	**Policy Components** **0/5**	
Not Enacted	**Louisiana** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** - SPOT - Distributed Generation/Solar Carve-out in Louisiana ■	**Southeast**	**Policy Components** **0/5**	
Enacted	**Maine** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** - SPOT - Distributed Generation/Solar Carve-out in Maine ■	**Northeast**	**Policy Components** **5/5**	
Enacted	**Maryland** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** - SPOT - Distributed Generation/Solar Carve-out in Maryland ■	**Southeast**	**Policy Components** **5/5**

Enacted	**Massachusetts** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** SPOT - Distributed Generation/Solar Carve-out in • Massachusetts ■	**Northeast**	**Policy Components** **5/5**	
Not Enacted	**Michigan** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** SPOT - Distributed Generation/Solar Carve-out in • Michigan ■	**Midwest**	**Policy Components** **0/5**	
Partially Enacted	**Minnesota** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** SPOT - Distributed Generation/Solar Carve-out in • Minnesota ■	**Midwest**	**Policy Components** **3/5**	
Not Enacted	**Mississippi** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** SPOT - Distributed Generation/Solar Carve-out in • Mississippi ■	**Southeast**	**Policy Components** **0/5**	
Partially Enacted	**Missouri** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** SPOT - Distributed Generation/Solar Carve-out in • Missouri ■	**Midwest**	**Policy Components** **1/5**	

STATUS	STATE	REGION	COMPONENTS	YR ENACTED
Not Enacted	**Montana** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** SPOT - Distributed Generation/Solar Carve-out in • Montana ■	West	**Policy Components** **0/5**	
Not Enacted	**Nebraska** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** SPOT - Distributed Generation/Solar Carve-out in • Nebraska ■	Midwest	**Policy Components** **0/5**	
Partially Enacted	**Nevada** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** SPOT - Distributed Generation/Solar Carve-out in • Nevada ■	West	**Policy Components** **2/5**	
Enacted	**New Hampshire** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** SPOT - Distributed Generation/Solar Carve-out in • New Hampshire ■	Northeast	**Policy Components** **5/5**	
Enacted	**New Jersey** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** SPOT - Distributed Generation/Solar Carve-out in • New Jersey ■	Northeast	**Policy Components** **5/5**	

STATUS	STATE	REGION	COMPONENTS	YR ENACTED
Not Enacted	**New Mexico** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** SPOT - Distributed Generation/Solar Carve-out in • New Mexico ■	**Southwest**	**Policy Components** **0/5**	
Not Enacted	**New York** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** SPOT - Distributed Generation/Solar Carve-out in • New York ■	**Northeast**	**Policy Components** **0/5**	
Partially Enacted	**North Carolina** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** SPOT - Distributed Generation/Solar Carve-out in • North Carolina ■	**Southeast**	**Policy Components** **1/5**	
Not Enacted	**North Dakota** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** SPOT - Distributed Generation/Solar Carve-out in • North Dakota ■	**Midwest**	**Policy Components** **0/5**	
Not Enacted	**Ohio** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** SPOT - Distributed Generation/Solar Carve-out in • Ohio ■	**Midwest**	**Policy Components** **0/5**	

STATUS	STATE	REGION	COMPONENTS	YR ENACTED
Not Enacted	**Oklahoma** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** • SPOT - Distributed Generation/Solar Carve-out in Oklahoma ■	**Southwest**	**Policy Components** 0/5	
Partially Enacted	**Oregon** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** • SPOT - Distributed Generation/Solar Carve-out in Oregon ■	**West**	**Policy Components** 3/5	
Partially Enacted	**Pennsylvania** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** • SPOT - Distributed Generation/Solar Carve-out in Pennsylvania ■	**Northeast**	**Policy Components** 1/5	
Not Enacted	**Rhode Island** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** • SPOT - Distributed Generation/Solar Carve-out in Rhode Island ■	**Northeast**	**Policy Components** 0/5	
Not Enacted	**South Carolina** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** • SPOT - Distributed Generation/Solar Carve-out in South Carolina ■	**Southeast**	**Policy Components** 0/5	

STATUS	STATE	REGION	COMPONENTS	YR ENACTED
Not Enacted	**South Dakota** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** • SPOT - Distributed Generation/Solar Carve-out in South Dakota ■	**Midwest**	**Policy Components** **0/5**	
Not Enacted	**Tennessee** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** • SPOT - Distributed Generation/Solar Carve-out in Tennessee ■	**Southeast**	**Policy Components** **0/5**	
Partially Enacted	**Texas** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** • SPOT - Distributed Generation/Solar Carve-out in Texas ■	**Southwest**	**Policy Components** **1/5**	
Not Enacted	**Utah** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** • SPOT - Distributed Generation/Solar Carve-out in Utah ■	**West**	**Policy Components** **0/5**	
Enacted	**Vermont** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** • SPOT - Distributed Generation/Solar Carve-out in Vermont ■	**Northeast**	**Policy Components** **5/5**	

STATUS	STATE	REGION	COMPONENTS	YR ENACTED
Not Enacted	**Virginia** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** - SPOT - Distributed Generation/Solar Carve-out in Virginia ■	**Southeast**	**Policy Components** **0/5**	
Not Enacted	**Washington** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** - SPOT - Distributed Generation/Solar Carve-out in Washington ■	**West**	**Policy Components** **0/5**	
Not Enacted	**West Virginia** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** - SPOT - Distributed Generation/Solar Carve-out in West Virginia ■	**Southeast**	**Policy Components** **0/5**	
Not Enacted	**Wisconsin** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** - SPOT - Distributed Generation/Solar Carve-out in Wisconsin ■	**Midwest**	**Policy Components** **0/5**	
Not Enacted	**Wyoming** **The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into "components", which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.** **Establishing Policies** - SPOT - Distributed Generation/Solar Carve-out in Wyoming ■	**West**	**Policy Components** **0/5**
