

STATUS	POLICY	POLICY AREA	POLICY CATEGORY	YEAR ENACTED
	Clean Energy and Renewable Portfolio Standards			
 Enacted	20% renewable energy by 2025 Establishing Policies <ul style="list-style-type: none"> • SB 202 (2008) 	Electricity	Energy Plans and Targets	2008
	Electricity Greenhouse Gas Emissions Reduction Targets			
 Not Enacted	Electricity greenhouse gas (GHG) emissions reduction targets are set by a state to limit GHG emissions in the electricity sector. These targets aim to reduce emissions by different amounts over time, often expressed as percentage relative to a baseline year.	Electricity	Energy Plans and Targets	
	Clean Energy Plans			
 Not Enacted	Clean energy plans are documents that outline the policies and strategies states can implement to meet clean energy targets. Draft plans are often published first, and after a period of public comments and revisions, a final plan is released.	Electricity	Energy Plans and Targets

Electricity

Clean Energy Generation

Community Choice Aggregation

Community choice aggregation allows local governments to procure power on behalf of their residents, businesses, and municipal accounts from an alternative supplier while still receiving transmission and distribution service from their existing utility provider.

Electricity

Clean Energy Generation

Energy Storage Targets

Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.
