

STATUS	POLICY	POLICY AREA	POLICY CATEGORY	YEAR ENACTED
 Not Enacted	<p><b>Clean Energy and Renewable Portfolio Standards</b></p> <p>Clean energy standards and renewable portfolio standards set a target for a specific amount of clean or renewable electricity the state must generate by a certain year, often with incremental targets over time.</p>	Electricity	<b>Energy Plans and Targets</b>	
 Not Enacted	<p><b>Electricity Greenhouse Gas Emissions Reduction Targets</b></p> <p>Electricity greenhouse gas (GHG) emissions reduction targets are set by a state to limit GHG emissions in the electricity sector. These targets aim to reduce emissions by different amounts over time, often expressed as percentage relative to a baseline year.</p>	Electricity	<b>Energy Plans and Targets</b>	
 Not Enacted	<p><b>Clean Energy Plans</b></p> <p>Clean energy plans are documents that outline the policies and strategies states can implement to meet clean energy targets. Draft plans are often published first, and after a period of public comments and revisions, a final plan is released.</p>	Electricity	<b>Energy Plans and Targets</b>

Electricity

**Clean Energy Generation**

### Community Choice Aggregation

Not Enacted

Community choice aggregation allows local governments to procure power on behalf of their residents, businesses, and municipal accounts from an alternative supplier while still receiving transmission and distribution service from their existing utility provider.

Electricity

**Clean Energy Generation**

### Energy Storage Targets

Not Enacted

Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.
